

ACCESS PANEL - METAL

»» 971 series

SPECIFICATION

Sioux Chief 971 series metal access panels shall be used in construction and finishing applications that require an accessible area. 971 panels are perfect as an accessible door/panel for plumbing access, electrical access, general mechanical system or wiring access. Sioux Chief 971 metal panels shall be made from generally 18 gauge material and incorporate a hinged door. Sioux Chief 971 metal panels shall be generally powder coated gray in color.

MATERIALS

Panel & Door: Steel
Paint: Powder-Coat gray

APPLICATION

To conceal or provide access to mechanical, electrical and plumbing systems and system components.
